FY2007 Third Quarter Revenue Highlights

General Fund revenues through the third quarter of FY2007 increased \$15.6 million—4.9%. The third quarter of FY2006 had an increase of 10.6% compared to the same period in FY2005. The following highlights are offered for the City's major revenue categories:

- Intergovernmental revenues increased 0.65% (approximately \$1 million). Consolidated tax, which accounts for 97% of the revenue in the category, increased 0.71% (approximately \$1 million). Clark County taxable sales through January had an increase of 2.4%. The portion of the taxable sales the City receives was flat compared to the same period in the prior year.
- Taxes, through the third quarter of FY2007, increased 13.1% (roughly \$10 million) compared to the same period in FY2006. Property Tax revenue increased 13.3% due to the large amount of new construction that was added to the tax rolls in FY2007.
- Licenses and Permits increased 6.2% (approximately \$3.5 million) through the third quarter of FY2007. Franchise Fees increased 5.7% (approximately \$2.1 million) due to population growth and various rate increases. Also, contributing to the rise in the category was a 13.2% (\$1.4 million) increase in Business Licenses.
- Charges for Services decreased 4.1% (approximately \$860 thousand) through the third quarter of FY2007. Corrections Charges decreased 28.1% (approximately \$2 million) due to less beds rented to Federal Inmates. Municipal Court Charges increased 11.6% due to procedural changes and more aggressive collection efforts, while Miscellaneous fees increased 37.5% (approximately \$680 thousand) partly due to the opening of the Darling Tennis Center.
- Fines and Forfeits increased 8.3% through the third quarter of FY2007. Municipal court fines increased approximately \$970 thousand (9.0%) due to better collection efforts and more case filings.

Selected Enterprise Fund Revenue:

- Building permits decreased 20.1% through the third quarter of FY2007. The decrease was due to a decline in construction valuations—a drop of 43%.
- Sewer Connection fees decreased 44.8% through the third quarter of FY2007. The decrease was due to a decline in construction valuations and less sewer connections—43% decline in valuations and a 47% decrease in the number of connections.
- Parking revenues decreased 6.5% (\$206 thousand). The decline was due to a number of unfilled Parking Enforcement Officer positions which resulted in less tickets being written.

Trend Analysis--State Shared Revenues

State Shared Revenues increased \$1,080,803 (0.71%) through the third quarter of FY2007 compared to the same period in the prior year. Taxable sales, through January of FY2007, increased 2.7% for the State as a whole. In Clark County, taxable sales increased 2.4% while Washoe County decreased -0.4%. The portion of the Sales Tax the City receives (BCCRT and SCCRT) was flat through the third quarter.

Consolidated tax, which consists of six different revenue sources, accounts for the majority of the revenue in the category. The six revenue sources are pooled at the County level and are distributed (by the State Treasurers office) to the local governments under a two tiered formula. A base amount of revenue was initially established under the 1997 legislature and it has been adjusted each calendar year by the change in CPI to create the ensuing year base allocation. Accordingly, the City receives a base monthly allocation (calculated by the increase in CPI applied to prior years total distributions) and any excess collections above the base amount. Any excess collections are distributed based on a formula that incorporates population and growth statistics. The increase in the CPI used to calculate FY2007 base amounts was 3.4%.

As a side note, the third quarter year to date figure is only seven months of revenue (July-January). The Consolidated Tax Distribution for February and March are due to the City in April and May and will be recorded in the month of receipt--an accrual will not be made.

Trend Analysis--Other Local Govt. Shared Revenues

Third quarter revenue for FY2007 decreased \$111,961 (-3.82%) compared to the same period in the prior year. The revenue category consists of County Gaming Licenses and Payment in Lieu of Taxes (PILT). PILT showed no activity during the period.

The County collects gaming taxes from various City gambling establishments and subsequently distributes the proceeds to the City. County Gaming Licenses are levied upon the casino on a monthly basis per slot machine, per table game, and other miscellaneous games at varying rates depending on the type of game. These fees are paid quarterly in advance.

A review of the Gaming Control Boards "Gaming Revenue Report", for the three month period ending January 31, 2007, indicated the number of games/tables and the number of slot machines in the downtown Las Vegas area decreased -4.0% and -6.5%--respectively. In addition, the gaming win for the three month period ending January 31, 2007 declined -3.17% for the downtown Las Vegas area.

Trend Analysis--Ad Valorem Property Tax

Ad Valorem Property Tax increased \$9,951,895 (13.31%) through the third quarter of FY2007 compared to the same period in the prior year. The allowable tax rate increased 0.38%, the tax rate levied remained the same (at 0.6765), and assessed value increased 33.68% (from 16.48 billion to 22.03 billion).

In past years, a correlation existed between the rise in property tax revenue and the increase in assessed valuation because the formula used to calculate the tax was based on assessed valuation. Beginning in FY06, the formula used to calculate property taxes was changed due to the 2005 Legislature. The 2005 Legislature put a cap on the amount the property owners tax liability can increase. For residential properties, the cap is not to exceed more than 3% of last year's tax liability.

The reason the City did not realize a smaller increase in property tax, as would be expected considering the limitation imposed by the 2005 Legislature, was due to the large amount of new construction that was added to the tax rolls in FY2007.

Liquor licenses through the third quarter of FY2007 increased \$288,056 (18.75%) compared to the prior year. The category consists of semiannual license fees and original new license fees. Semiannual fees range from \$100 to \$1,200 and are due in advance on April 1st and October 1st. Original new license fees are one time fees which are due and payable at the time of filing an application. The increase can be attributed to more new original licenses sold compared to the same period in the prior year.
